PROFILE

Frontend Developer with 2+ years of hands-on experience in frontend and full-stack web development, specializing in **React, React Native, TypeScript, Node.js, REST APIs, databases, and cloud-based application infrastructure**. Experienced in developing and maintaining **production-ready e-commerce and marketplace applications**, covering responsive user interfaces, backend APIs, authentication, database integration, media storage, payments, deployment, and performance optimization. Strong focus on **scalable architecture, reusable components, application performance, and reliable user experiences**.

PROFESSIONAL EXPERIENCE

Website Development Manager

SureBuy Store
Bhubaneswar, India
August 2026 - Present

- Leading the development and maintenance of **PhoneBhai**, a production-ready e-commerce marketplace for buying refurbished, used, and new smartphones.
- Developing responsive web interfaces using **Next.js, React, and TypeScript**, with a focus on reusable components, clean architecture, and consistent user experience.
- Working across the application stack, including **Node.js, Express.js, REST APIs, Prisma, PostgreSQL, authentication, and database integration**.
- Implementing and maintaining key e-commerce flows including **product browsing, search, cart, wishlist, checkout, orders, user accounts, addresses, reviews, and payments**.
- Managing integrations with **Cloudflare R2/CDN, Razorpay, and Twilio Verify** for media delivery, payment processing, and user verification.
- Handling **production deployments, environment configuration, API integration, debugging, performance optimization, and ongoing application maintenance**.
- Collaborating across frontend and backend development to improve application reliability, scalability, performance, and overall user experience.

React Native Developer

- Developed and maintained **cross-platform mobile applications** using **React Native and TypeScript**, focusing on performance, reusability, and maintainable architecture.
- Implemented **Redux-based state management** for cart, wishlist, user flows, and other application features.
- Built **responsive and reusable UI components** with a strong focus on usability, accessibility, and consistent experiences across mobile devices.
- Designed and integrated **component-driven architecture** to improve code reusability, consistency, and maintainability across application screens.
- Collaborated with designers to translate **UI/UX designs into accurate, production-ready interfaces** following modern frontend development practices.
- Optimized application performance by reducing **unnecessary re-renders** and improving state and component lifecycle management.
- Maintained code quality through **structured project architecture, reusable components, and TypeScript type safety**.

SKILLS

Frontend :

React, Next.js, React Native, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, HTML5, CSS3, Responsive UI

Backend :

Node.js, Express.js, REST APIs, Java, Prisma, Authentication, API Integration

Database :

PostgreSQL, SQL, Database Integration

Cloud & Services :

Cloudflare R2, Cloudflare CDN, Firebase, Razorpay, Twilio Verify

Tools & Version Control:

Git, Bitbucket, Postman, VS Code, Expo, Sublime Text, Eclipse

WORK EXPERINECE

PhoneBhai – E-commerce Marketplace :

Technologies: Next.js, React, TypeScript, Node.js, Express.js, Prisma, PostgreSQL, Cloudflare R2, Razorpay, Twilio Verify, REST APIs, Vercel

- Developed and deployed **PhoneBhai**, a production-ready e-commerce marketplace for buying refurbished, used, and new smartphones.
- Built responsive product browsing, search, filtering, product details, cart, wishlist, checkout, order tracking, and account flows using **Next.js, React, TypeScript, and Redux**.
- Developed and integrated **REST APIs** using **Node.js and Express.js**, with **Prisma and PostgreSQL** for product, user, order, address, and review data management.
- Implemented **authentication and user account flows**, including protected APIs and verification using **Twilio Verify**.
- Integrated **Cloudflare R2 and CDN-based media delivery** for product images and optimized image loading and caching for improved performance.
- Integrated **Razorpay payment processing** and implemented checkout and order creation flows for production use.
- Deployed and maintained the application using **Vercel**, with separate frontend and backend services & Production Environment configuration .

REACT NATIVE DEVELOPER – LUMOSYS TECHNOLOGY PVT LTD

Bhubaneswar, India

Gibnu User E-commerce Application

August 2024 – August 2026

Technologies: ReactNative, TypeScript, Redux, React Navigation, Styled Components, REST APIs, Firebase, Git, Expo, Responsive UI Design

and
smoother
user
interactio
ns.

- Developed **Gibnu**, an e-commerce application and website using **React Native, React, and TypeScript**, enabling users to browse, search, and purchase products across mobile and web platforms.
- Implemented **dynamic product listings, search, filters, and cart functionality** using **Redux** for efficient and centralized state management.
